

MAGNUM LITHIUM GREASE EP-2

MAGNUM LITHIUM GREASE is a premium quality lithium complex soap-based multipurpose grease manufactured from superior quality base stocks with specially selected additives.

BENEFITS

- Excellent thermal and oxidation stability
- This grease also provides protection against rust and corrosion.
- Having moderately high drop points, resistance to oxidation, and good Thermal and structural stability.
- Extended bearing life

PERFORMANCE LEVEL

- Meets IS-14847:2000

QUALITY FEATURES

- Based on information available, this product is not likely to pose any advanced effect on health.
- Provided It is as per the recommendation for more information refer MSDS For disposal.
- Check local regulations and take care to protect the environment

APPLICATION OF USE

MAGNUM LITHIUM GREASE is suitable for all types of industrial applications in steel plants, mining, cement, and different engineering industries as excellent multipurpose grease.

TYPICAL TECHNICAL PROPERTIES

Physical Characteristics	Test Method	Typical Value
TYPICAL PROPERTIES	EP-2	EP-3
Type of Soap	Lithium	Lithium
Colour	RED	RED
Work Penetration at 25°C	280	240
Drop Point °C,	230	230

Note: All figures may vary slightly.
